

# VAS, Issuing & E-Wallets

Ecentric provides access to a range of VAS services through the Postillion and our Universal Payments Framework, where we are either the issuing service or we connect to the preferred host.

## ReconAssist™ Support

Irrespective of the VAS supplier, we will include support in our unique transaction reconciliation engine, ReconAssist™.

### Services

**Airtime:** Vending of electronic airtime vouchers from any service provider or through the Ecentric airtime host.

**Electricity:** Vending of electricity vouchers from any external service provider.

**Bill Payments:** Receipt and settlement of bill payments at point of sale directly to billers or through aggregators.

**Money Transfers:** Sending and receiving cash domestically and across borders.

**Card Issuing:** Instore issuing of branded and non-branded cards for loyalty, gift cards and instore cards, in open and closed loop environments.

**Card Issuing:** Instore issuing of branded and non-branded cards for loyalty, gift cards and instore cards, in open and closed loop environments.

**Ticketing:** Vending through aggregators of electronic tickets for events and travel.

**Wallets:** Consumers are requiring access to a store of value on their mobile phones, often referred to as a wallet. Our service offers a virtual store of value on your mobile app through a branded wallet.

### The uniqueness of Ecentric's cash to cash Money Transfers

Ecentric will switch any VAS transaction to the retailer's established and preferred supplier. ReconAssist™ allows the retailer to reconcile all of these VAS transactions at a transaction level, including daily settlement, principle amounts, fees and commissions.
