

The Ecentric OmniHub is a platform which gives you access to multiple participating digital service providers and alternative payment types, (current and future), without you having to integrate directly with all those providers. It enables you to embrace the future world of payments and value-added services with a single integration.

Existing Features

A single integration with Ecentric

providing access to multiple service providers, fintechs, innovators and alternative payment types

Comprised of:

the **OmniSwitch**, **OmniLedger** and **OmniPay** (settlement, fees, commissions)

A built in OmniLedger for off-the-shelf:

- Digital wallet enablement
- App payments
- Rewards as you pay
- E-vouchers
- E-coupons
- Gift cards

Seamless integration into ReconAssist™

for immediate reconciliation and exception management of all OmniHub transactions

- Once off integration with your ledger
- New payment methods or services limited to configuration only
- Flick any of our gateway switches to 'ON' to enable services, for example, e-commerce, crypto-acceptance and VAS acceptance
- Participate in the world of inter-operability with the OmniCode token host
- Access to Ecentric as an aggregator of aggregators
- Tracking and calculation of fees, commission and execution of settlement from the hub

...The uniqueness of the Ecentric OmniHub

The uniqueness of the Ecentric OmniHub

- You won't need to integrate with every one of your service providers. You just need to integrate once with the OmniHub to give you access to all those participating providers.
- The OmniHub will provide easy reconciliation readiness.
- Available in South Africa and across parts of the African continent.
- Secure, compliant, fast, and always-on, from pinpad, site or app to any service provider.
- Built-in gateways for simple access to current and future digital services for example, online payments, mobile payments, crypto and VAS.
- OmniHub includes out of the box app payments (QR, Token, NFC), electronic vouchers, coupons and receipts and will in future include out-the-box Gift Cards, Remittances and Rewards.
- Zero ongoing IT impact to finance, Point of Sale or back office systems.

Future Features

- Dev portal for once-off channel integration whether its in-store POS / Pinpad, online, mobile or in-office
- A service provider sign-up portal for quick, self-service on-boarding
- OmniHub settlement manager controls of all settlement, fees / commissions calculations and disbursements functions
- Management of all vendor settlements and complex disbursements all synchronised to your general ledger through ReconAssist™
- We will have integrated and negotiated the best deals so you don't have to
- Access to e-receipts and let your customers track their purchases behaviour, loyalty rewards, discounts and specials through your OmniApp
- Ability to provision your own wallet or voucher systems using the Ecentric OmniLedger which is directly integrated into the hub
- Access to trusted industry leaders, for example, Cloud POS (Thumbzup), cloud ledgers (Paycycle), loyalty programmes (Wigroup), Block Chain (CentBee, Africoin)
