PAYMENT SYSTEMS

**Your Trusted Payment Partner for
Seamless Transactions**

About South Africa's Preferred Payment Processor

E-centric Payment Systems is a leading provider of payment processing solutions for businesses across various sectors in South Africa, specializing in delivering comprehensive and secure payment processing solutions for In-Person and Online Payments.

We cater to banks, PSPs, POS vendors, and businesses ranging from corporates to multi-national retailers. Our focus is to enable seamless payment services and deliver a comprehensive range of solutions such as back-office operations and reconciliation for our customers.

Backed by nearly two decades of expertise and experience, E-centric supports most of South Africa's largest retailers and businesses, ensuring seamless, reliable, and compliant transactions.

Our Core Solutions

In-Person Payments

Designed for Corporate and Multi-National retailers, our solution guarantees fast, secure, and real-time transaction processing, with support for multiple payment devices. We maintain near-perfect uptime, ensuring your business never misses a sale. We offer robust, secure, and flexible in-person payment solutions designed for businesses of all sizes. Our offerings include:

- Android-based payment devices (Sunmi P2 & P3 Range) with options for outright purchase with rental options.
- Comprehensive POS integration, supporting Integrated payments with vendors such as Munch, Nebula POS, Tallorder POS, Aura POS, Commerce7, and many more.
- EPS Connect API for Android, App2App Integration or eSocket API integration options for integration flexibility, making our solution compatible with various platforms and devices

Online Payments

Our Online solutions simplify and enhance the online shopping experience with secure, efficient payment gateways. Our platform simplifies digital payments with a big focus on security (PCI DSS compliance), ease of integration, and broad payment options—including cards, eBucks (coming soon), Instant EFT, and more. Perfect for e-commerce businesses looking for a frictionless customer experience.

- Hosted Payment Page for quick setup and management.
- LightBox and Enterprise API for customized payment flows.
- Scheme Tokenization and Subscription Payments for recurring payment setups.
- Integration with popular platforms such as Magento, WooCommerce, PrestaShop, and support for alternative payment methods like Buy Now, Pay Later (BNPL).

Automated Reconciliation

ReconAssist™ ReconAssist Lite

ReconAssist™ is our specialized reconciliation solution designed to simplify financial processes for businesses:

- Choose between 2-Way Matching or 3-way matching across POS vendors, switches, and banks.
- Automates the calculation of principal amounts, fees, and commissions.
- Seamlessly integrates with General Ledgers for posting and reconciliation of all payment methods.

This automated reconciliation tool helps businesses eliminate the manual effort of matching transactions with bank statements. ReconAssist™ therefore streamlines financial management, reduces errors, and ensures faster, more accurate payment matching.
